BURNSHIELD DRESSING

POLYURETHANE OPEN CELL FOAM

TREATS ALL TYPES OF BURNS & SCALDS

BASE MATERIAL

- Polyurethane open cell foam
- Barrier protection against bacteria
- Flexible material conforms to any body part
- Promotes moist wound healing
- Absorbs and dissipates heat
- Gel retention

HYDROGEL

- 1% *Melaleuca alt* (Tea Tree Oil)
- 96% Purified Water
- Viscous hydrogel to ensure the gel remains in contact with the wound
- Cools and soothes
- Assists pain relief
- Transparency allows for visualisation of wound healing
- Minimises trauma and skin damage

PRIVATE LABEL BRANDING OFFER
 With the minimum order quantities being easily achievable, this service is a perfect option to promote your own brand. We manufacture and design to your requirements with our in-house design department.

Which BURNSHIELD® PRODUCT DO YOU NEED? DRESSING VS HYDROGEL

BURNSHIELD DRESSING

A foam dressing soaked in Burnshield® sterile trauma hydrogel, supplied in a foil pouch.

The Burnshield® Dressing is the **PRIMARY** product of choice:

- Natural wound covering
- Keeps the burn area protected and moist
- Conforms to wound area
- Gel retention
- Limits bacteria exposure to the wound

HOW TO APPLY

1. Open the sterile package
2. Remove the Foam Dressing from package
3. Apply a suitable size Dressing to cover the wound
4. Secure the Dressing with a non-adherent bandage
5. Re-apply Burnshield Hydrogel to the dressing to prevent the wound from dehydrating
6. Seek medical attention

BURNSHIELD HYDROGEL

Can be used in 3 situations:

- Sunburn
- Difficult to reach areas: e.g. behind the ears, creases of the face and groin
- Rehydrate the Burnshield® Dressing

HOW TO APPLY

1. Apply Burnshield® Hydrogel thoroughly and ensure to extend the application beyond the burn area
2. Cover the gel with a non-adherent dressing
3. Re-apply the gel to prevent the wound from dehydrating
4. Seek medical attention

Burnshield® is a sterile trauma hydrogel used to treat minor burns and scalds. The gel is white to off-white in colour which turns clear once applied. This allows for monitoring of wound progression.

- All Burnshield® products are:
- Sterile
 - Cools & soothes
 - Minimises skin damage
 - Non-adherent
 - Non-toxic
 - Non-irritant
 - Safe to use on children

Both the **BURNSHIELD DRESSING** and **BURNSHIELD HYDROGEL** can be used independently or in conjunction with each other

We are a South African based medical manufacturer of Burnshield Emergency Burn Care and First Aid Kits, audited annually with CE & ISO accreditation.

Levtrade International (PTY) LTD was founded in 1990 with a single product line, Burnshield®. Burnshield® is an international go-to emergency burn care range of premium products that provide an immediate and effective method of treating burn injuries in the acute (emergency) phase.

Burnshield® is manufactured and distributed from our world class factory in Johannesburg, South Africa which meets the requirements of and holds certificates of approval to market. These accreditations have afforded our company the opportunity to export into more than 42 countries worldwide.

Burnshield® is endorsed and accepted internationally through independent laboratory tests, research and acceptance in key Hospital & EMS protocols. This paved the way for the development into various markets including: Medical, Consumer, Industrial, Military, Police/Traffic, Correctional Services, First Aid Kit Manufacturers, Hospital and EMS/Fire departments. Training & Educational items have been introduced to compliment the range.

As the company grew and opened up new markets, the demand for a quality First Aid & Surgical Range became a priority and a perfect compliment to the Burnshield range. Levtrade designed and produced an extensive range of First Aid & Trauma Kits to cover every purpose including Domestic, Factories, Hotels, Sport, Retail, Medical Professionals and Corporates.

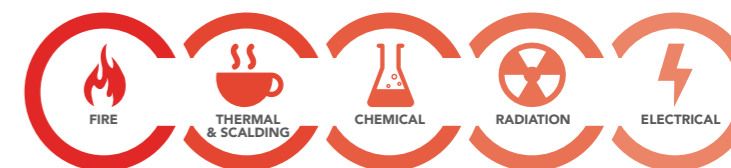

The product range expanded to include Solace® Suncare products endorsed by CANSA South Africa for UVA and UVB protection. Solace® Suncare is the proud sponsor of IRONMAN South Africa.

Our belief in providing quality at all times afforded us the opportunity to distribute our own brand of Sport Strapping, Tapes and Kits under the PROSTRAP® brand. This has been well received by Sport Doctors, Sports Teams, Physio's, Clubs and Schools.

Our manufacturing and warehouse facilities ensure we provide quality and service for a variety of Professional, Occupational Health, Corporate, Retail and Relief organisations.

We offer personal service, premium support and delivery to our clients worldwide. It is due to the continued support of our many loyal clients and the team effort required in-house that allows us to enjoy the success we do both locally and internationally.

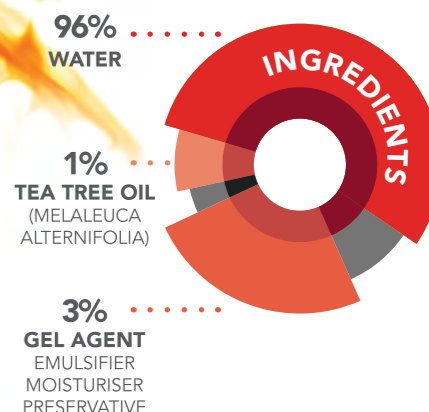

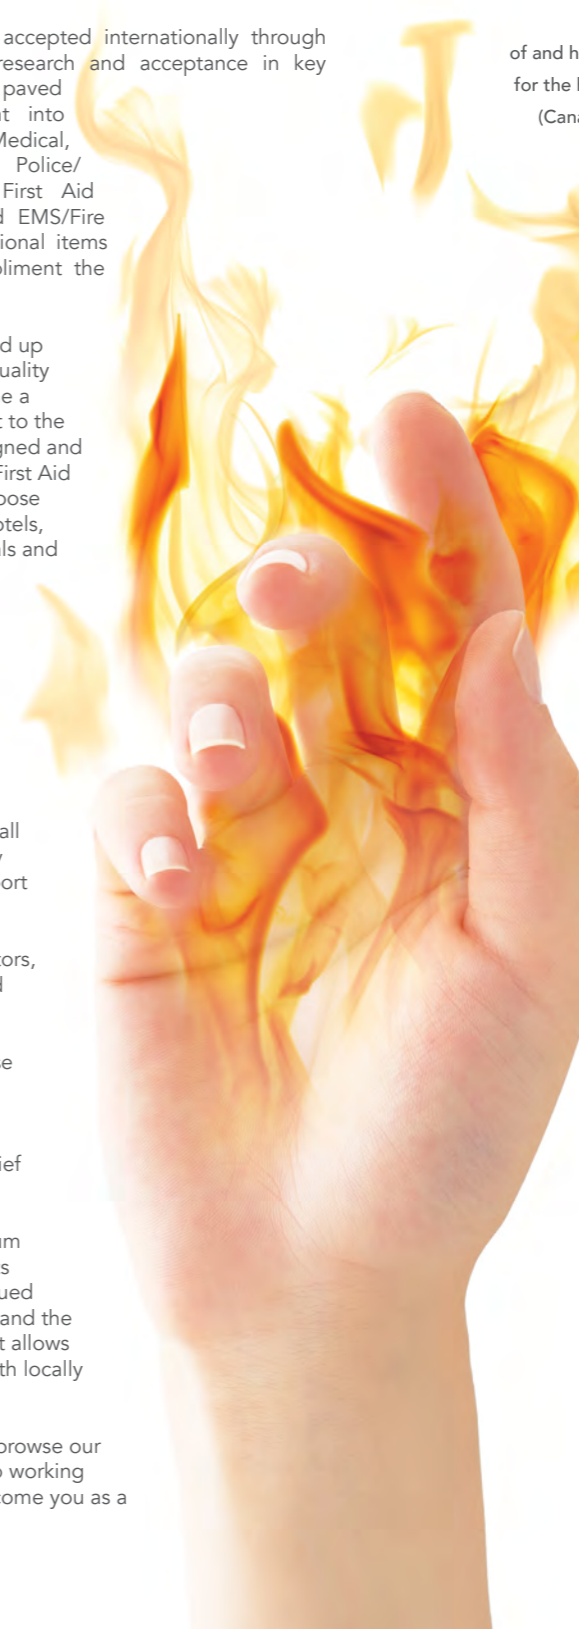

Thank you for taking the time to browse our catalogue and we look forward to working with you in the future and to welcome you as a valued customer.

BURNSHIELD® IS SUITABLE FOR ALL TYPES OF BURNS

BURNSHIELD® products meet the requirements of and hold certificates to: ISO 13485 and CE (European mark for the highest standard of manufacture and quality), MDSAP (Canada), FDA (USA), TGA (Australia), and SAHPRA (South African Health Products Regulatory Authority).

Burnshield's original ground-breaking product, Fire Trauma Blanket was developed in conjunction with the Wool Board and the CSIR. The Fire Trauma Blanket is used as a large area covering, escape from a burning area and to extinguish flames on a person or object. It provides pain relief and healing while victims are being transported to emergency care units.

50% of all burn injuries occur in the home, and the vast majority of the victims are young children. This unique product is effective in treating severe upper body burns on children from 6 months to 5 years old. This Cotton Burn Vest is manufactured from fibreless cotton for comfort and maximum gel retention. The Burnshield Burn Vest has been tested and is supported by the Paediatric Burns Unit at the Chris Hani Baragwanath Hospital.
